SUMMARY

I am a Full Stack Developer with nearly 5 years of experience building scalable, secure, and high-performance web applications in Agile environments. I am proficient in HTML5, JavaScript, TypeScript, React.js, and Node.js, with additional experience in Angular and NestJS. I have hands-on experience developing responsive user interfaces, RESTful APIs and web services, third-party integrations, and real-time applications using Socket.io. I work with relational databases such as MySQL and PostgreSQL alongside MongoDB, and I have experience with CI/CD pipelines, Git/GitHub, and Microsoft Azure. I have a strong understanding of the Software Development Life Cycle (SDLC) and deliver end-to-end solutions in Agile/Scrum teams.

PROFESSIONAL EXPERIENCE

Full Stack Developer — Softobiz Technologies, India **3 January 2022 – Present**

- I develop scalable full-stack web applications using React.js, Node.js, TypeScript, Angular, and NestJS.
- I build responsive UIs using HTML5, JavaScript, TypeScript, React Hooks, RxJS, and NgRx.
- I design REST APIs, web services, backend services, database schemas, and third-party integrations.
- I work with relational databases (MySQL) and MongoDB for data management and performance optimization.
- I work in Agile/Scrum teams, collaborating with QA, designers, and business teams across the SDLC.
- I perform technical design, code reviews, debugging, deployment, and UAT support.
- I use Git/GitHub and CI/CD pipelines (GitHub Actions) to support build and deployment workflows.
- I lead and mentor team members, assign tasks, and ensure timely feature delivery.
- I leverage GitHub Copilot and Claude AI for development, debugging, and productivity.

PROJECTS

Shipping Marketplace Platform (SMP) — Logistics Management System lynktmc.com

Tech Stack: Angular · TypeScript · NestJS · MongoDB · Socket.io · REST APIs · JWT · RBAC

- I developed scalable shipment and load management features using Angular and TypeScript for end-to-end logistics workflows.
- I built core modules for Shippers, Carriers, Drivers, and Solo Drivers, supporting load assignment, tracking, and operational workflows.
- I designed and developed REST APIs and backend services using NestJS and MongoDB with a focus on scalability and performance.
- I implemented JWT authentication and Role-Based Access Control (RBAC) for secure, role-specific access across the platform.
- I developed a real-time chat system using Socket.io to enable seamless communication between platform users.
- I integrated real-time map and location tracking to improve shipment and driver visibility.
- I implemented shipment and load lifecycle management, including Open, Active, Assigned, In-Transit, and Completed statuses.
- I developed driver availability and leave management features to prevent load assignment conflicts.
- I improved application reliability and user experience through performance optimization, a responsive UI, reusable components, and bug resolution.

Oroton oroton.com

Tech Stack: React.js · Redux · NestJS · TypeScript · BigCommerce APIs · Contentful CMS · REST APIs · JavaScript · HTML5 · CSS3

- I built and enhanced a personalized Gift Recommendation / Gift Finder system, integrating BigCommerce APIs and Contentful CMS to deliver dynamic product recommendations and personalized shopping experiences.

- I developed the Gift Finder frontend using React.js and Redux, including interactive user flows, product recommendations, dynamic content rendering, and responsive UI components.
- I developed scalable NestJS backend APIs for dynamic product, content, and recommendation handling, ensuring efficient integration between the frontend, BigCommerce, and Contentful.
- I implemented responsive, user-friendly interfaces with a strong focus on performance optimization, reusable components, and cross-device compatibility.
- I integrated frontend and backend services to provide a seamless gift discovery experience, supporting improved user engagement and conversion.

FirstPath genesisbehaviorcenter.com

Tech Stack: Angular · TypeScript

- I built franchise management and document upload modules in Angular, handling multi-location data and streamlining franchise operations.

ACHIEVEMENTS

- Laser Focus Award — Softobiz Technologies (2024): Recognized for outstanding focus during a high-priority delivery cycle.
- Top Performer Award — SMP Project: Awarded for exceptional contributions and on-time feature delivery.
- Above and Beyond Award — Oroton Project: Recognized for exceptional dedication and direct client appreciation.

TECHNICAL SKILLS

Frontend: HTML5 · CSS3 · JavaScript (ES6+) · TypeScript · React.js · Redux · Angular · RxJS · Bootstrap

Backend: Node.js · NestJS · Express.js · REST APIs / Web Services · JWT · Socket.io

Databases: MySQL · PostgreSQL · TypeORM · MongoDB · SQL & NoSQL

Cloud/DevOps: CI/CD · GitHub Actions · Git/GitHub · Microsoft Azure (AKS, App Service) · AWS (EC2, S3, Lambda, RDS)

Methodologies: Agile · Scrum · SDLC · Code Review · Mentoring

AI/ML Tools: GitHub Copilot · Cursor · ChatGPT · Claude AI · Generative AI

CERTIFICATIONS

- Web Application Design & Development — Nine Pages Techsolution Pvt. Ltd. (Jun 2019 – Aug 2019)
- Java Technology Training — Nine Pages Techsolution Pvt. Ltd.
- Generative AI (Gen AI) — Workshop Completed

EDUCATION

B.Tech — Information Technology **2016 – 2020**

Hindustan College of Science and Technology

Dr. A. P. J. Abdul Kalam Technical University
